INSTALLATION INSTRUCTIONS FOR VENT A SHELF UNITS (24" & 30")

Packed Inside: Your Vent A Shelf unit, sleeve for rear discharge, transition for top discharge, stainless steel baffle filter, cover for ducted application, ductless charcoal filter and air deflector for ductless application. IF ONE OR MORE OF THESE ITEMS IS NOT PACKED IN YOUR BOX, PLEASE CONTACT PRESTIGE @ 800.358.8886.

NOT INCLUDED: Dampened wall cap (3 ¼" x 10")

STEP 1. Remove Vent A Shelf from packing and set on a soft blanket.

STEP 2. Remove screws that release front panel, which will expose back panel and locate the hanging keys on the back of your unit.

STEP 3. *For **rear ducted application**, use back panel for template and mark the wall and duct location where installation is intended. (3 ¼" x 10") **SKIP THIS STEP FOR DUCTLESS APPLICATION**

Before hanging your Vent A Shelf, be sure cover the rectangular discharge hole on the top of your vent a shelf to prevent air escaping back into your kitchen. (Cover included in box.)

*For **top ducted application**, use supplied top duct transition to template. (3 ¼" x 10") **SKIP THIS STEP FOR DUCTLESS APPLICATION**

Before hanging your Vent A Shelf, be sure cover the rectangular discharge hole on the top of your vent a shelf to prevent air escaping back into your kitchen. (Cover included in box.)

*For **ductless application**, locate top air deflector and install on the top of the unit where the rectangular discharge is located. Be sure that supplied charcoal filter is in unit for optimal ductless performance. (Charcoal filter is included and should be installed **BEHIND** your supplied baffle filter.) **SKIP THIS STEP FOR DUCTED APPLICATION**

STEP 4. After location of hood is identified and prepared, locate a support stud within your wall. If a support stud is not available, be sure to use anchors or mollies for secure installation.

STEP 5. Hang the back panel that was removed in step 2.

STEP 6. Re-attach front panel to back panel and be sure that your vent a shelf is secured in its hanging position.

STEP 7. Make all electrical connections by either plugging into an existing 115volt outlet or hardwiring directly from the junction box in your vent a shelf to your circuit breaker. **PLEASE BE SURE THAT YOUR SUPPLIED ELECTRICITY IS TURNED OFF BEFORE ATTEMPTING TO MAKE WIRING CONNECTIONS!**

STEP 8. BE sure to test your vent a shelf after installing to be sure all connections were made safely and the vent a shelf is secure in it hanging position.

For service and warranty questions, please call Prestige America at 800.358.8886.

WARRANTY INFORMATION

The Prestige Vent A Shelf has a 1 year Parts and Labor Warranty. There is a limited LIFETIME WARRANTY on the motor. (Warranty does NOT COVER light bulb's or filters. Additional light bulb's and filters can be purchased directly from Prestige America. **DO NOT TOUCH LIGHTBULB WITH YOUR BARE SKIN.**

CLEANING AND MAINTENANCE

Your Vent A Shelf will not function properly if not cleaned regularly and maintained. Clean the baffle filter regularly (at least twice a month or every 24 hours of use) by soaking it in soapy water and rinsing it in the dishwasher at the normal cycle. When the filter is removed, the accessible interior of the Vent A Shelf can be cleaned from grease, using only soap and water. Burned out halogen light bulbs are exchanged in the same way as normal light bulbs. Make sure to replace them with the same type and wattage. (Replacement bulbs are 12volt, 20 watt MAX). Make it a habit to turn on your Vent A Shelf on low speed even when you are boiling water. The cleaning of the outside of the Vent A Shelf depends on the material used as a decorative exterior. For stainless steel and powder coated metals, clean with soap and water only. Do not use abrasive or aggressive chemicals! Check the outside end of the duct at least once a year. Make sure that the back draft damper hinges are free of grease and move easily. If you have an insect screen installed in the duct cover, make sure that it is not broken or dislocated. Filters are dishwasher safe or you may hand wash with warm soapy water.

Thank you for choosing Prestige! Enjoy your Vent A Shelf!

Sincerely,

The Prestige Team
